## UiTM student hurt in trekking mishap

KUALA LUMPUR: A Universiti Teknologi Mara (UiTM) student from Shah Alam was seriously injured after being hit by a falling boulder while trekking up Bukit Broga in Semenyih yesterday.

Norhanani Shahim, 22, who was with a group of 15 students from the university, started the trek at 8am but soon after was found to be missing.

After a two-hour search, group member Khairul Nazmi Zubairu, also 22, found her slumped on the ground at the edge of the hill with a big boulder pinning her down.

A Kajang Civil Defence Department spokesman said Khairul had sought their assistance to remove the boulder.

A team comprising the department staff and personnel from both the Fire and Rescue Department and Kajang Hospital arrived at 11am and managed to dislodge the boulder.

Norhanani told rescuers she had stumbled and the boulder fell on her. — Bernama
