‘Love yourself, and family’

LOVE yourself and your family, and practise a healthy living culture towards a promising future.

This was the message from the Chairperson of Sabah Women’s Advisory Council (MPWS), Datuk Hjh Mariati Robert at the Seminar on Growing Love, Million Hopes – Developing Happy Families on Saturday.

“It is with the realisation and high hopes of empowering the young generation, our nation’s hope, so that they are not diverted onto the wrong path of life by destructive elements that we (MPWS) have joined hands with UiTM Sabah Branch to hold this seminar,” she said.

Mariati stressed that the family institution regarded as the closest unit to young people must be sustained at all costs “because we want good upbringing for the young generation so that they can contribute positively to the making of the Malaysian Race.”

She urged the tertiary students to let new knowledge (acquired from the seminar) be a useful guide in their daily lives.

“Don’t fall into the depths of social ills which will ruin not only yourselves but also the nation as a whole.”

The panelists at the forum were Universiti Teknologi Mara (Shah Alam) Senior Counsellor, Hjh Siti Aluyah Hj Mohd Ali, Clinical Andrology Consultant, Prof Emeritus Dr Mohd Ismail Mohamad and UiTM Sabah Branch (Student Affairs Health Unit) Medical Officer, Dr Haslezah Saelih.
