ICATS introduces new courses every year, says Razali

**KUCHING:** The International College of Advanced Technology Sarawak (i-CATS), despite being established 10 years ago, has many achievements by introducing new courses every year.

ICATS Board of Governors Members, Dr. Razali Abon, who represented its President Tan Sri Datuk Amar Haji Abdul Aziz Hussain, said this in his welcoming speech at the opening of the ‘Colloquium on Applications of Information Technology in the Industry at the Sarawak Skills Development Centre here yesterday.

Razali said the nation was blessed with smart people from all walks of life and if they were trained with skills, with their intelligent and intellectual capabilities fused, they would have served the nation in a much better way.

He said i-CATS had been preparing students to encounter the real and challenging world in order to survive and be triumphant in their careers.

Therefore, starting from 2008, i-CATS had been offering various new courses which were good for the future of industries in the country and the students themselves, he added.

Razali revealed that i-CATS had collaborated with many other institutions and industries to refresh workers with the latest updates and technology so that they could achieve greater success in life.

The colloquium yesterday was attended by 125 students which 25 from Universiti Technology MARA (UITM), Swinburne University of Technology, Sarawak Campus and Limkokwing University of Creative Technology (Kuching).
